

**UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS**  
**GCE Advanced Subsidiary Level and GCE Advanced Level**

**MARK SCHEME for the May/June 2011 question paper**  
**for the guidance of teachers**

**9700 BIOLOGY**

**9700/32**

Paper 32 (Advanced Practical Skills 2),  
maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

<b>Page 2</b>	<b>Mark Scheme: Teachers' version</b>	<b>Syllabus</b>	<b>Paper</b>
	<b>GCE AS/A LEVEL – May/June 2011</b>	<b>9700</b>	<b>32</b>

Mark scheme abbreviations:

<b>;</b>	separates marking points
<b>/</b>	alternative answers for the same point
<b>R</b>	reject
<b>A</b>	accept (for answers correctly cued by the question, or by extra guidance)
<b>AW</b>	alternative wording (where responses vary more than usual)
<b><u>underline</u></b>	actual word given must be used by candidate (grammatical variants excepted)
<b>max</b>	indicates the maximum number of marks that can be given
<b>ora</b>	or reverse argument
<b>mp</b>	marking point (with relevant number)
<b>ecf</b>	error carried forward
<b>I</b>	ignore
<b>BOD</b>	Benefit of Doubt given
<b>ACE</b>	Analysis, Conclusions and Evaluation (skills)
<b>PDO</b>	Presentation of Data and Observations (skills)
<b>MMO</b>	Manipulations, Measurement and Observation (skills)

	<b>GCE AS/A LEVEL – May/June 2011</b>	<b>9700</b>	<b>32</b>

<b>(b) (i) Calculate the actual diameter of the tube shown by line x in fig. 2.1</b>		<b>[4]</b>
MMO collection 1	[1] measures line X correctly in mm; <i>95 or 95.5 or 96 or 96.5 or 97 mm</i>	
	Additional guidance <b>Must have</b>	
	• units	
PDO display 2	[1] shows measurement divided by <u>22</u> ;	
	Additional guidance <b>Can show</b>	
	• alternative division signs	
	• incorrect measurement	
	[1] rounds any answer of division by <u>22</u> to two or three significant figures;	
	Additional guidance <b>Do not give if</b>	
	• in metres	
ACE interpretation 1	[1] correct answer one of following only in mm; 4.32 or 4.34 or 4.36 or 4.39 or 4.41 or 4.3 or 4.4 mm.	
	Additional guidance <b>Do not give mark if</b>	
	0.43/0.44 cm or micrometres	
<b>(ii) Use the actual diameter of the tube calculated in (b)(i) and your graph in (a)(i) to estimate the distance along length of the tube.</b>		<b>[1]</b>
ACE interpretation 1	[1] correct answer using their answer from (b)(i) and graph and <u>cm</u> ;
