UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

GCE Advanced Subsidiary Level and GCE Advanced Level

MARK SCHEME for the May/June 2012 question paper for the guidance of teachers

9700 BIOLOGY

9700/34

Paper 32 (Advanced Practical Skills 2), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2012 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	2 Mark Scheme: Teachers' version		Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

Mark scheme abbreviations:

; separates marking points

I alternative answers for the same point

R reject

A accept (for answers correctly cued by the question, or by extra guidance)

AW alternative wording (where responses vary more than usual)

<u>underline</u> actual word given must be used by candidate (grammatical variants excepted)

max indicates the maximum number of marks that can be given

ora or reverse argument

mp marking point (with relevant number)

ecf error carried forward

I ignore

AVP Alternative valid point (examples given as guidance)

Page 3	Mark Scheme: Teachers' version		Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

Ques	stion 1	Expected Answers		
(a) ((i)		[3]	
MMO decisions 3	mp 1	100	 (simple dilution) next four concentrations (five concentrations in total) with four even intervals; e.g. 100, 80, 60, 40, 20 e.g. 100, 90, 80, 70, 60 e.g. 100, 75, 50, 25, 0 (serial dilution) e.g. 100,50, 25,12.5, 6.25 e.g. 100,10,1,0.1 and 0.01 Do not give mark if rounds up or down e.g.12 or 13 or 6.3 if no concentrations 	
OMM	mp 2	for <u>first four</u> concentrations shows the use of 100% or plant extract / correctly • plant extract / P / 100 into <u>all</u> simple dilution • plant extract / P / 100 <u>only for first one</u> in a serial dilution	AND (P) cm ³ ;	
			Do not give mark if if no concentrations	
	mp 3	for first four concentrations total final vol	ume <u>10</u> ;	

Page 4	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (ii)		[6]	
	mp 1	table with all cells drawn	heading (top or left of recorded data column) percentage concentration (of) plant extract or P;	
ding 2			Do not give mark if • % in cells of headed column • other units mol dm ⁻³ • no units	
PDO recording	mp 2	(heading – column or row including time (/)s or sec(onds);	g mean)	
PD			Do not give mark if units in cells of this column / row min(utes) additional method information either headings for columns / rows variables or in cells e.g. volumes and concentration in same cells	
2	mp 3	(mark first column / row of recorde for at least four concentrations records whole seconds numbers least force.)	d time taken) ess than 180 or '> or more than 180';	
MMO collection 2		Must have • whole numbers • numbers 180 or less		
Σ	mp 4	(mark first column / row of recorded time taken) (records correct pattern) highest concentration recorded is shorter time than lowest concentration;		
on 2	mp 5	at least two readings per concentration or six or more concentrations;		
MMO decision 2	mp 6	mean / average recorded or rate recorded for two or more concentrations;		

Page 5	5 Mark Scheme: Teachers' version		Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) ((a) (iii) Mark as incorrect idea that any errors which affect all tubes equally.		
		cause of error	WITH idea of error
	mp 1	(independent variable – different concentrations of plant extract, catalase) plant extract (on paper)	not even or bubbles / foam on side; (do not give if gas bubbles/oxygen)
	mp 2	volume or amount or	idea of
		concentrations of extract	different (different pieces of paper)
e X		time of dipping or soaking	not the same
n MA		extract left on paper	not removed
etatic		thickness of paper	varies;
ACE interpretation MAX 3	mp 3	(dependent variable – different times for paper to rise in hydrogen peroxide solution)	
A A		timing	paper sinking to bottom variable time for paper to reach bottom paper rises flat or paper on edge or foam on paper;
	mp 4	hydrogen peroxide	not the same (concentration) for each square of paper or lost has P (from previous concentration) idea of used up or not new / fresh;
	mp 5	paper	idea of sticking to sides;
	mp 6	temperature of hydrogen peroxide	rises;

Page 6	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (i	(a) (iv)			[max 3]		
	mp 1	(concentration of extract) idea of using more concentrations of	or seri	al dilution		
		or				
က						
MAX		Ignore mean or average				
ACE improvements MAX	mp 2	(standardised variables) use same piece / source of paper				
ηproν		same time for soaking or dipping into plant extract;				
) Hi	mp 3	рН		use buffers to keep constant;		
Ä	mp 4	hydrogen peroxide		use fresh hydrogen peroxide / renew for each square (so 'not used up');		
	mp 5	container or squares		use deeper / wider container so squares do not touch sides smaller or as circles;		
(b) (i	i)	or oquareo		[4]		
(3)	mp 1	x-axis		AND y-axis		
		percentage concentration hydrogen peroxide or H ₂ O ₂		time (/) s or sec(onds) to collect oxygen or O_2 ;		
	mp 2	scale as x-axis 5 to 2 cm labelled each 2cm		AND y-axis 10 to 2 cm labelled each 2cm;		
PDO layout 4	mp 3	correct plotting of • <u>five</u> points only • as small cross (does not go outside square on grid) or dot (in circle) or cross in circle to <u>within</u> half a square;		square on grid) or dot (in circle) or cross in		
a	mp 4	five plots with ruled lines exactly point to point or curve through five points		(quality) oth line less than line thickness on grid;		
				ot give mark if any extrapolation		

Page 7	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(b) (ii)				
sion 3	mp 1	either ref. to increase or more hydrogen peroxide or substrate reacts with or binds to enzyme or catalase; or low hydrogen peroxide or substrate so does not react with or bind to enzyme or catalase;		
concl	mp 2	correct ref. to use of active site(s) or ESC(s) or enzyme-substrate complexes;		
ACE conclusion	mp 3	(at high hydrogen peroxide) Idea of Ilmiting factor (or hydrogen peroxide not limiting factor) too few active sites / ESCs or active sites full / allow 'enzyme saturated' temperature or pH;		
		Do not give mark if		
	[Total: 2			

Page 8	Mark Scheme: Teachers' version	Syllabus	Paper -
	GCE AS/A LEVEL – May/June 2012	9700	34

Ques	tion 2	Expected Answers					
(a) (i)		[5]				
PDO layout 1	mp 1	not drawn over the print of question AND no shading	AND largest blood vessel larger than 50 mm	clear, sharp, unbroken lines for all outermost enclosed areas; Do not give mark if less than two outermost enclosed areas or if any outermost line has any ruled or compass lines any line more than 1 mm feathery or broken or dashed or gap any 'tail' or overlap			
n 3	mp 2	no cells	no cells AND drawn at least two complete vessels;				
MMO collection 3	mp 3	drawn differe must be <u>only</u>	nt vessels two complete vessels	AND different shapes;			
MMO	mp 4		complete vessel least two layers ee lines)	AND in this vessel inner lining crinkled or corrugated all round;			
ision 1	mp 5	correct label muscle or tunica media with label line to layer touching endothelium (inner line) of complete vessel with thickest wall; Must have minimum of three enclosed areas, line must touch middle line or be between the middle and inner line					
MMO decision 1	If label both vessels with muscle or tunica media then both must be correct			Onot give mark if			

Page 9	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – May/June 2012	9700	34

(a) (i	i)			[5]		
PDO layout 1	mp 1	not drawn over the print of question AND no shading	AND larger than 50 mm across widest point of inner enclosed area on any alveolus	clear, sharp, unbroken lines for all inner enclosed areas; Do not give mark if less than two hand drawn inner enclosed areas any of the inner enclosed areas has any ruled lines any line more than 1mm any feathery line or broken or dashed or gap in line any 'tails' or overlaps or gaps		
MMO collection 2	mp 2 only two inner enclosed areas lgnore double lines AND with shared adjacent wall and adjacent wall and adjacent wall and and adjacent wall and adjacent		AND with outer line partly drawn to show each end of the shared wall;			
M W	mp 3	at least 2 complete alveoli of different shapes;				
	mp 4	drawn all shared alveoli (all round	l walls with all other I both alveoli)	AND (walls with) at least three nuclei drawn enclosed in the alveolar wall; Do not give mark if draw cells		
cision 2	mp 5	only correct label gas exchange membrane with label line(s) which touches the line or between two lines;				
MMO decision 2				On not give mark if		

Page 10	Mark Scheme: Teachers' version	Syllabus	Paper	
	GCE AS/A LEVEL – May/June 2012	9700	34	

(a) (ii	(a) (iii) [3]				
MMO collection 1	mp 1	shows at least one value for each of C , D , E , F , and G AND correct unit mm anywhere which match values; Ignore use of metres or mm			
	mp 2	shows addition of five values		AND shows division by 5;	
			Do not give mark for • Sx/n unless x and n have key		
PDO display 2	mp 3	shows at least <u>one</u> conversion of mm to mm by showing • multiplication by ×1000 or 10 ³ ; or conversion from cm to mm • ×10 000 or 10 ⁴		AND shows figure divided by / or ÷ 95 or	
				Do not give mark if	

Page 11	Mark Scheme: Teachers' version	Syllabus	Paper	
	GCE AS/A LEVEL – May/June 2012	9700	34	

(b)						[max 5
PDO recording 1	mp 1	only thre separate needed)	panise as a table with only three columns or rows parated by lines (no cells eded) nore number column AND headings in any order only Fig. 2.2 / healthy Fig. 2.3 / unhealthy			AND third column or row contains features;
	mp 2	only obs	ervable differences (a	t least two) recorded;		
MMO decision 1		Do not give mark if any similarities recorded any function e.g. 'for gas exchange' or not obser surface area to volume ratio healthy and unhealthy / bursting / damaged				
			feature	Fig. 2.2 healthy lung		ig. 2.3 nhealthy lung
ACE interpretation MAX 3		mp 1	size (of air space / lumen diameter) surface area / gas exchange membrand alveolar wall	larg(er)	L	arge / larg(er); small(er) few(er) or less
